

SENTRY

Acousto-Magnetic EAS Antennas

Model : AME3401L

PERFORMANCE & PRICE *Unbelievable? But real!!!*

STANDARD FEATURES

- ◉ Long detection range
- ◉ Strong noise immunity
- ◉ Air synchronization
- ◉ Built-in electronics
- ◉ 1 mainboard for maximum 3 transceiver antennas
- ◉ Flexible modes of antennas under one mainboard
- ◉ Software configuration
- ◉ Virtual oscilloscope
- ◉ Tag-Too-Close alert
- ◉ Jammer detection & alert
- ◉ External device control (CCTV, access control, etc.)
- ◉ Plug-n-play for most of installations
- ◉ Comprehensive parameters for installation in harsh environment
- ◉ High standard electronic components

OPTIONAL FEATURES

- ◉ Wireless managing local antennas
- ◉ Remote monitor & configuration
- ◉ Configure with remote configurator unit
- ◉ Data management
- ◉ Data analytics

| Technical specifications | |
|-------------------------------|--------------------------------------------|
| Central frequency | 58KHz |
| TX frequency bandwidth | 58KHz±0.8KHz |
| Power consumption | 15W(normal) / 40W(max.) |
| Fuse | 1A |
| TX Current (max.) | ≥30A |
| Voltage | 110V or 220V (AC) |
| Alarm audio level | 100dB |
| Alarm light color | Red (normal) / Other color (customized) |
| Environmental requirements | |
| Temperature | 0-50°C |
| Relative humidity | 0-90%RH, non-condensing |
| Detection ranges (both sides) | |
| Label | 80cm |
| 33mm ferrite tag | 110cm |

PRODUCT CODES

| Description | Product Code |
|----------------|--------------|
| Antenna | AME3401L |
| Frame | AME3401LN |
| System | AME3401LN |
| Master Antenna | AME3401LN-M |
| Slave Antenna | AME3401LN-S |
